Join Today's Online World With a Website

Dear Business Owner:

In Today's Marketplace, 23% of adults 18 and over never use phonebooks, newspapers or magazines for information when they wish to purchase a product or service; they search on-line. Of the remainder, 39% will use traditional print media just to get website information. They don't call first. This means that 53% of the buying public now visit websites to start their shopping process.
Will they find You?

Expand Your Advertising Options:

Print and Media Advertising is expensive. With a website you can **Reduce Your Advertising Budget While Competing With Larger Companies On-Line!!** Ask us how.

Make Buying From You Easier for Your Clients:

People who are looking at websites are Ready To Buy and Crave Facts. Let them find out more about you and your specials when they're ready to buy *and* extend this ability to non-regular business hours.

Inform the Public:

Use your website as an electronic brochure. Include pictures of your products and descriptions of all your services. The more information you provide the greater your chances of sealing the deal ahead of your competition.

Join the Electronic Promotion Revolution:

The redemption rate for printed coupons has fallen by 65% over the last three years while the cost to print them has gone up. Today however, **over 72% of people with mid to upper income levels will take advantage of Electronic Coupon Offers.** So why not put a great deal on your site which they can print at home and bring in? You can track this and start, stop or change it at any time.

Let GS Do the Work:

You won't have to worry about writing the content or creating the design. After our *free* initial meeting and quote we'll put our 20 years of computer and advertising experience to work for you. Once you approve everything we'll have **you on the worldwide web** in no time.
